'Flawless makeup application is all about the brushes.' As a makeup artist, Sue Biller was sick of 'paying top dollar for sad, skinny, high-end and celebrity brands that didn't perform – or last', so she designed and developed her own. Made with premium-quality Vegan Luxe synthetic fibres, they are softer than soft, with excellent pigment pick-up, colour payoff and blendability. The range includes everything from a fine-detail pencil brush to a big, fluffy bronzer brush.
